

CoolSculpting FAQs, answered by Dr. Emery

Q. Is it safe?

A. Invented by Harvard scientists, CoolSculpting is patented and FDA-approved, with an excellent safety profile.

Q. How long does it take? Is there downtime?

A. Appointments typically last 1 to 2 hours. You can resume normal activities immediately.

Q. Are results permanent?

A. Because CoolSculpting eliminates fat cells from the body, results are permanent when you maintain your weight with your normal diet and exercise.

Q. Does Remedy offer other services for men?

A. In addition to CoolSculpting, our most popular Executive Services are Botox and Juvéderm treatments, Ultherapy neck tightening, Gentleman's Facial, and laser-hair removal on the back.

the cool, non-invasive answer to a sculpted body

chill the fat

Introducing CoolSculpting® A new, non-invasive way to effectively reduce stubborn fat in specific problem areas of your body. CoolSculpting uses advanced cooling to selectively "chill away" fat and bulges that may not respond to diet or exercise. You'll see an undeniable result in as little as one visit. Call us today for a free consultation: 805-497-9400. Remedy is one of the Top 6 CoolSculpting practices in California.
